Free Jazz/Black Power Philippe Carles 2015-01-01

In 1971, French jazz critics Philippe Carles and Jean-Louis Comolli co-wrote Free Jazz/Black Power, a treatise on the racial and political implications of jazz and jazz criticism. It remains a testimony to the long ignored encounter of radical African American music and French left-wing criticism. Carles and Comolli set out to defend a

genre vilified by jazz critics on both sides of the Atlantic by exposing the new sound's ties to African American culture, history, and the political struggle that was raging in the early 1970s. The two offered a political and cultural history of black presence in the United States to shed more light on the dubious role played by jazz criticism in racial oppression. This analysis of jazz criticism and its production is astutely self-aware. It critiques the critics, building a work of cultural studies in a time and place where the practice was virtually unknown. The authors reached radical conclusions—free jazz was a revolutionary reaction against white domination, was the musical counterpart to the Black Power movement, and was a music that demanded a similar political commitment. The impact of this book is difficult to overstate, as it made readers reconsider their response to African American music. In some cases it changed the way musicians thought about and played jazz. *Free Jazz / Black Power* remains indispensable to the study of the relation of American free jazz to European audiences, critics, and artists. This monumental critique caught the spirit of its time and also realigned that zeitgeist.

Pasolini Enzo Siciliano 1987 Pasolini's body was found in a deserted field outside Rome in November

1975. He had been murdered by a homosexual prostitute, but it is possible that the murder was in fact politically motivated. This is a study of one of the most remarkable Italian writers and artists since World War II.

Slow Wine Guide USA 2021 Deborah Parker Wong  
2021-04-16 With a total of 285 wineries reviewed from California, Oregon and now from New York and Washington states, the 2021 edition of the Slow Wine guide USA covers more ground than ever before. For the first time, the 2021 edition stands as

an individual publication devoted to US producers. The idea behind Slow Wine is straightforward: it acknowledges the unique stories of people and vineyards, of grape varieties and landscapes, and of their wines. The knowledge that wine is more than just liquid in a glass helps wine lovers make better, more conscious choices and enhances the very enjoyment of these products. Since its beginnings in Italy eleven years ago, Slow Wine has combined its tasting sessions with equally important moments of exchange and debate with producers. In doing so, we're bringing you the most up-to-date information about what's happening at the wineries within our pages. We're thrilled to see the guide finding fertile ground in the USA. Our incredible team of wine experts has once again teamed up to bring you our fourth edition, Slow Wine 2021 - a year in the life of the vineyards and wines of the USA.

Historical Atlas of Medieval Music Vera Minazzi 2019-08-31 Music is rooted in the heart of Western culture. The absence of music from the usual publications of medieval history and history of art of the Middle Ages is understandable, considering the rarity of sources. And yet, throughout the last decades, an intense activity of historico-musicological research has been carried out

internationally by a select group of specialized scholars. The ambitious goal of this work is to set medieval music within its historical and cultural context and to provide readers interested in different disciplines with an overall picture of music in the Middle Ages; multi-faceted, enjoyable, yet scientifically rigorous. To achieve this goal, the most prominent scholars of medieval musicology were invited to participate, along with archaeologists, experts of acoustics and architecture, historians and philosophers of medieval thought. The volume offers exceptional iconography and several maps, to accompany the reader in a fascinating journey through a network of places, cultural influences, rituals and themes.

### The Good Wife's Guide (Le Ménagier de Paris)

2012-08-22 In the closing years of the fourteenth century, an anonymous French writer compiled a book addressed to a fifteen-year-old bride, narrated in the voice of her husband, a wealthy, aging Parisian. The book was designed to teach this young wife the moral attributes, duties, and conduct befitting a woman of her station in society, in the almost certain event of her widowhood and subsequent remarriage. The work also provides a rich assembly of practical materials for the wife's use and for her household, including treatises on

gardening and shopping, tips on choosing servants, directions on the medical care of horses and the training of hawks, plus menus for elaborate feasts, and more than 380 recipes. The Good Wife's Guide is the first complete modern English translation of this important medieval text also known as *Le Ménagier de Paris* (the Parisian household book), a work long recognized for its unique insights into the domestic life of the bourgeoisie during the later Middle Ages. The Good Wife's Guide, expertly rendered into modern English by Gina L. Greco and Christine M. Rose, is accompanied by an informative critical introduction setting the work in its proper medieval context as a conduct manual. This edition presents the book in its entirety, as it must have existed for its earliest readers. The Guide is now a treasure for the classroom, appealing to anyone studying medieval literature or history or considering the complex lives of medieval women. It illuminates the milieu and composition process of medieval authors and will in turn fascinate cooking or horticulture enthusiasts. The work illustrates how a (perhaps fictional) Parisian householder of the late fourteenth century might well have trained his wife so that her behavior could reflect honorably on him and enhance his reputation.

Language and Social Context Pier Paolo Giglioli  
1990 Even the simplest of spoken statements may provide far more information about the speaker - his social standing, his immediate situation, his relationship with his audience - than he might ever suspect. sociolinguistics focuses on all the varied aspects of the social organization of speech. We share a linguistic repertoire with members of our social networks (and failure to "fit in" linguistically may have far-reaching consequences); we also alter our speech patterns according to the specific social situation.

Foundations of the Conciliar Theory Brian Tierney  
1998 This book is an account of those canonistic theories of Church government which contributed to

the growth of the conciliar theory, and which were formulated between Gratian's "Decretum" (c. 1140) and the Great Schism (1378). "Foundations of the Conciliar Theory" is considered by many to be one of those rare books that significantly influenced twentieth century medieval historical studies. Now again available in a new enlarged edition, it will continue to be an indispensable work for all those interested in Church history and the Middle Ages.

Medieval Arab Cookery Arthur John Arberry 2001

"The French scholar, Maxime Rodinson's contributions are legendary, yet have only been seen in translation in *Petits Propos Culinaires*. We include those already published there, together with the text of his longest paper, 'Recherches sur les documents Arabes relatifs a la cuisine', translated by Barbara Yeomans. The American scholar Charles Perry has been entertaining participants at the Oxford Symposium with regular gleanings from his researches into medieval Arab cookery, and several of his papers are gathered here, together with a new study of fish recipes, and other items previously published in PPC. Subjects include grain foods of the early Turks, rotted condiments, cooking pots, and *Kitab al-Tibakhah*, a 15th-century cookery book. English study of the subject was first encouraged by Professor Arberry's translation of the

13th-century cookery book Kitab al-Tabikh, published in 1939 in the periodical Islamic Culture." Car Racing 1967 Hb Johnny Rives 2021-03-08 The third volume in the 'Car Racing' collection, 1967 bears witness to the gradual appearance of color. Photographers henceforth juggled rolls of both black & white and color film as they ventured as close as possible to the drivers and throngs entranced with speed and competition. Industries and automobile marques understood the full import of the tremendous platform motorsport offered them, and became ever more enthusiastic to share their stories and victories with the public. Many are mentioned in these pages, including Ford's extraordinary epic with the Cosworth engine and triumph at Le Mans. This volume also showcases portraits of drivers from François Cevert to Bruce McLaren, and touches on the careers of legendary designers such as Jean Rédélé, Colin Chapman and Jim Hall... In their lively commentary, Johnny Rives and Manou Zurini take evident pleasure in recalling old acquaintances from the pitched fever of the track, joyfully sharing their knowledge through anecdotes and memories. Text in English and French.
