U. S. Army Board Study Guide 2006-06-01

The Mentor Mark Gerecht 2002-02-01 The most comprehensive guide on leadership and counseling detailing how to make counseling sessions productive. Contains examples of corrective training with 100's of bullets used in the enlisted evaluation process includes many web sites that benefit military personnel.

The Ambiguous Embrace Charles L. Glenn 2002-02-10 This is a time of far-reaching change and debate in American education and social policy, spurred in part by a rediscovery that civil-society institutions are often better than government at meeting human needs. As Charles Glenn shows in this book, faith-based schools and social agencies have been particularly effective, especially in meeting the needs of the most vulnerable. However, many oppose providing public funds for religious institutions, either on the grounds that it would threaten the constitutional separation of church and state or from concern it might dilute or secularize the distinctive character of the institutions themselves. Glenn tackles these arguments head on. He builds a uniquely comprehensive and persuasive case for faith-based organizations playing a far more active role in American schools and social agencies. And, most importantly, he shows that they could do so both while receiving public funds and while striking a workable balance between accountability and autonomy. Glenn is ideally placed to make this argument. A leading expert on international education policies, he was for many years the director of urban education and civil rights for the Massachusetts Department of Education, and also serves as an Associate Minister of inner-city churches in Boston. Glenn draws on all his varied experience here as he reviews the policies and practices of governments in the United States and Europe as they have worked with faith-based schools and also with such social agencies as the Salvation Army and Teen Challenge. He seeks to answer key theoretical and practical questions: Why should government make greater use of faith-based providers? How could they do so without violating First

Amendment limits? What working relationships protect the goals and standards both of government and of the organizations that the government funds? Glenn shows that, with appropriate forms of accountability and a strong commitment to a distinctive vision of service, faith-based organizations can collaborate safely with government, to their mutual benefit and that of those they serve. This is a major contribution to one of the most important topics in political and social debate today.

Clinical Military Counseling Mark A. Stebnicki 2020-09-07 Clinical Military Counseling provides current research and ethical practice guidelines for the assessment, diagnosis, and mental health treatment of active-duty service members, veterans, and military families in a 21st-century multicultural environment. Author Mark Stebnicki discusses contemporary military culture; the medical and psychosocial aspects of military health, including the neuroscience of military stress and trauma; suicide; chronic illnesses and disability; and blast and traumatic brain injuries. In addition, he offers integrative approaches to healing the mind, body, and spirit of service members and veterans dealing with clinical issues, such as spirituality, moral injury, and trauma; complex posttraumatic stress disorder and co-occurring mental health conditions; the stresses of the deployment cycle; and military career transitions. *Requests for digital versions from ACA can be found on www.wiley.com. *To purchase print copies, please visit the ACA website here *Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org About the Author Mark A. Stebnicki, PhD, is professor emeritus and former coordinator of the Military and Trauma Counseling certificate program at East Carolina University and creator of the Clinical Military Counseling Certificate offered nationally through the Telehealth Certificate Institute of New York.

Army Correspondence Course U. S. Military 2017-03-26 This book reproduces two Army documents: Unit Ministry Team (UMT) Crisis Counseling: The Chaplain Assistant's Role, and Guide to the Prevention of Suicide and Self-Destructive Behavior. Lesson 1, Understanding the Distressed Individual * Lesson 2, Drug, Alcohol Abuse, and Suicide * Lesson 3, Referrals * Lesson 4, Helping Distressed Soldiers During Combat * Crisis is a state of disorganization in which people face frustration of important life goals or profound disruption of their cycles and methods of coping with stress. Counseling of any kind is an intensely intimate and personal activity, crisis counseling even more so. Counseling requires a sense of caring, stability, and perceptivity. Moreover, counseling requires recognition of the worth of others from all spheres of life. Successful counseling also requires a broad educational background and, indeed, a broad outlook on life. It requires basic psychological knowledge and understanding of the employment, social, and domestic environments in which the counseling is done. For the purposes of helping distressed soldiers or their distressed family members, awareness of the unique emotional and psychological dynamics of military life is also essential. Familiarity with community helping agencies is just as essential to the paraprofessional who helps those in crisis as it is to the seasoned

professional counselor. In this subcourse you will be required to become familiar with Maslow's hierarchy of needs, with nonwelfare and welfare referral agencies -- civilian and military. As an exercise, you will be asked to read and respond to a case study which deals with the complexities of trying to help a distressed individual. You will also be introduced to ten considerations for first contact response to these individuals. Suicide among young adults is a serious and growing problem. In the past 25 years, there has been a 300 percent increase in the adolescent suicide rate. More than 6,500 young Americans kill themselves each year. Taking all age groups into account, nearly 30,000 Americans kill themselves each year. Taking all age groups into account, nearly 30,000 Americans die by their own hand each year. There are over 1000 suicide attempts in the United States daily or one every minute of every day. Nationally, suicide is the tenth leading cause of death. In persons 14 to 25 years of age, it is the third leading cause of death and among college students, it is second. There is no simple answer as to why people choose to kill themselves. Usually, the emotional upset is so great that the person "just wants to stop the pain." The suicidal person feels a tremendous sense of loneliness and isolation. They feel helpless, hopeless, and worthless. Often they believe that it does not matter if they live or die and that no one would miss them. Suicidal people feel that they cannot cope with their problems and that suicide is the only possible way to escape unbearable pain.

A Clinical Guide to Psychiatric Ethics Laura Weiss Roberts 2016-04-19 In the video above, listen to the author, Dr. Roberts, discuss with Chief of Staff John M. Oldham the challenges that medical residents face in managing their own mental health and wellbeing. Professional ethics and decision making have become areas of heightened critical inquiry, as well as matters of normal but challenging psychiatric practice. Informed by the extensive clinical experience of the author and guest contributors, A Clinical Guide to Psychiatric Ethics approaches the ethical aspects of mental health care -- both subtle and dramatic -- with clarity, coherence, and optimism. This engaging text functions as both a review and a guide to issues on the horizon, as well as those encountered every day. The Guide achieves these objectives by employing several strategic features: Structured logically into three parts (Fundamentals, Caring for Special Populations, and Evolving Topics), the book takes the reader from the general to the specific and from the traditional to the emergent. Case scenarios at the end of each chapter not only focus the individual reader on the chapter's concepts and issues, but also may be used in independent study or small-group discussions. The text emphasizes real experience over remote theories, attuning readers to clinical realities with keen sensitivity. It does not offer simple answers, but provides guideposts to impart information, foster skill development, and encourage openness, collaboration, and self-reflection among both veteran clinicians and trainees. Significant focus is given to the care of individuals from distinct populations (e.g., children and veterans) and care occurring in unique contexts (e.g., small communities), underscoring the book's broad usefulness. The material is thoroughly current, aided by useful lists, tables, and figures to enhance its accessibility. A Clinical Guide to Psychiatric Ethics provides a trustworthy compass and expert companion for those traveling with their patients along the ethical frontier of mental illness.

Army Leadership and the Profession (ADP 6-22) Headquarters Department of the Army 2019-10-09 ADP 6-22 describes enduring concepts of leadership through the core competencies and attributes required of leaders of all cohorts and all organizations, regardless of mission or setting. These principles reflect decades of experience and validated scientific knowledge. An ideal Army leader serves as a role model through strong intellect, physical presence, professional competence, and moral character. An Army leader is able and willing to act decisively, within superior leaders' intent and purpose, and in the organization's best interests. Army leaders recognize that organizations, built on mutual trust and confidence, accomplish missions. Every member of the Army, military or civilian, is part of a team and functions in the role of leader and subordinate. Being a good subordinate is part of being an effective leader. Leaders do not just lead subordinates—they also lead other leaders. Leaders are not limited to just those designated by position, rank, or authority.

The Church Leader's Counseling Resource Book Cynthia Franklin Ph.D. 2011-02-01 This all-in-one guide is designed to better equip clergy and the church leaders to meet their congregations' needs in a spiritually grounded and scientifically sound manner. Succinct, easy-to-read chapters summarize all a pastor needs to know about a given problem area, including its signs or symptoms, questions to ask, effective helping skills, and, most importantly, when to refer to a mental health professional. Synthesizing what research says about treatment approaches for mental health issues, this user-friendly reference is filled with guidelines, case scenarios, key points to remember, resources for further help, advice on integrating scripture and theology with the best available research, and tips on partnering with others to provide the best possible care for each church member. Each chapter is designed for quick lookup by problem area, empowering church leaders to understand and help meet the challenges facing the children, adults, families, and communities that they serve.

The 1984 Guide to the Evaluation of Educational Experiences in the Armed Services American Council on Education 1984

Weight Management Institute of Medicine 2003-12-01 The primary purpose of fitness and body composition standards in the U.S. Armed Forces has always been to select individuals best suited to the physical demands of military service, based on the assumption that proper body weight and composition supports good health, physical fitness, and appropriate military appearance. The current epidemic of overweight and obesity in the United States affects the military services. The pool of available recruits is reduced because of failure to meet body composition standards for entry into the services and a high percentage of individuals exceeding military weight-for-height standards at the time of entry into the service leave the military before completing their term of enlistment. To aid in developing strategies for prevention and remediation of overweight in military personnel, the U.S. Army Medical Research and Materiel Command requested the Committee on Military Nutrition Research to review the scientific evidence for: factors that influence body weight, optimal components of a

weight loss and weight maintenance program, and the role of gender, age, and ethnicity in weight management.

The School Counselor's Study Guide for Credentialing Exams Rita Schellenberg 2013-06-19 The School Counselor's Study Guide for Credentialing Exams is the only study guide on the market based on the ASCA School Counselor Competencies, CACREP Standards, NBCC NCSCE content requirements, and the NCATE and NBPTS Standards. Designed to help users build knowledge and skills that are transferrable to any test format, it can be used to prepare for the NCSCE, Praxis II School Counseling Specialty Exam, NBPTS School Counseling national certification exam, Comprehensive School Counselor Education program exams, and state certification exams for professional school counseling. Each chapter aligns with one of the eight CACREP content areas for school counseling and covers in depth the material necessary to succeed on any of the exams. Also included in each chapter are case scenarios, guided reflection questions, and actual exam practice questions. A full-length practice exam is provided at the end with answers and explanations for correct and incorrect responses. Additional resources include a glossary of important terms and lists of ethical codes and competencies for various school counseling related organizations. Students and professionals seeking a professional school counselor credential will find this to be an invaluable tool in their exam preparation.

Soldier's Study Guide Walter J. Jackson 1996 This guide has been prepared to provide some direction and guidance for the enlisted soldiers of the United States Army. The information comes from military publications, established general policies, and my own military experience or more than twenty years' service.
