McClure 2002 In this 13th edition of "Adventuring with Books," teachers and librarians will find descriptions of more than 850 texts (published between 1999 and 2001) suitable for student use in background research, unit study, or pleasure reading, and children will find books that delight, amuse, and entertain. The texts described in the book are divided into 24 general topics, including Science Nonfiction; Struggle and Survival; Fantasy Literature; Sports; Games and Hobbies; and Mathematics in Our World. Each chapter begins with a brief list of selection criteria, a streamlined list of all annotated titles in that chapter, and an introduction in which chapter editors discuss their criteria and the status of available books in that subject area. While the reviews were written by adults, the voices and opinions of children are often included as well, lending credence to adult choices of the quality children's books. (NKA).

Women of Vision Eileen A. Gavin, PhD 2007-03-20 From the reviews: "Women of Vision blends biographical narrative with psychological perspectives on human development, resulting in a moving and passionate book that is suitable for both academic and nonacademic readers. It is a useful tool for teaching purposes or for simple, enjoyable, and informative reading." --Psychology of Women Quarterly "...a fascinating look of preservation and perceptiveness that is differentiated from its predecessors in its range of disciplines and emphasis...This new 'life course' approach to understanding female leaders gives valuable insight into the lives of these imminent women, furnishing insights into how the social-economic-political milieu and the attitudes and values of the time played a significant role in the lives of these women but also in all our lives. Women of Vision will serve as a springboard for exploration of how the psychologies of individual human lives affect their life-course and as a galvanizing step for many more future women of vision and leadership....The accounts in the book should be of substantial significance for readers interested in gender issues. However, the book will appeal to an even wider audience. Persons hoping to move in new directions in their own lives (e.g., women looking wistfully at new academic and occupational paths after years in stereotypic niches) can surely also find inspiration in the various accounts."--SirReadaLot.org We all know of women of great vision; women whose efforts and accomplishments have had a major impact on the arts, politics, women's rights, sports, or science. But often we may not understand how they became such powerful agents of change and what sorts of questions we should ask of their pasts to understand how the trajectories of their lives were formed. In this extraordinary textbook, leading experts cast new light on the role of circumstance, accomplishments, and personality in the development of various twentieth-century women of vision. This is a brand new life-course approach to understanding female leaders and gives valuable insight into the lives of such eminent women as Rachel Carson, Evelyn Gentry Hooker, Georgia O'Keeffe, Eleanor Roosevelt, "Babe" Didrikson Zaharias, Ella Fitzgerald, Alice Paul, Lucille Ball, and many others. Study questions and exercises at the end of each chapter further enhance the text. Women of Vision will serve as the springboard for exploration of how the psychologies of individual human lives affect their life-course and a galvanizing step for many more future women of vision and leadership.

Olympic Pride, American Prejudice Deborah Riley Draper 2020-02-04 In this "must-read for anyone concerned with race, sports, and politics in America" (William C. Rhoden, New York Times bestselling author), the inspirational and largely unknown true story of the eighteen African American athletes who competed in the 1936 Berlin Olympic Games, defying the racism of both Nazi Germany and the Jim Crow South. Set against the turbulent backdrop of a segregated United States, sixteen Black men and two Black women are torn between boycotting the Olympic Games in Nazi Germany or participating. If they go, they would represent a country that considered them second-class citizens and would compete amid a strong undercurrent of Aryan superiority that considered them inferior. Yet, if they stayed, would they ever have a chance to prove them wrong on a global stage? Five athletes, full of discipline and heart, guide you through this harrowing and inspiring journey. There's a young and feisty Tidy Pickett from Chicago, whose lithe speed makes her the first African American woman to compete in the Olympic Games; a quiet Louise Stokes from Malden, Massachusetts, who breaks records across the Northeast with humble beginnings training on railroad tracks. We find Mack Robinson in Pasadena, California, setting an example for his younger brother, Jackie Robinson; and the unlikely competitor Archie Williams, a lanky book-smart teen in Oakland takes home a gold medal. Then there's Ralph Metcalfe, born in Atlanta and raised in Chicago, who becomes the wise and fierce big brother of the group. From burning crosses set on the Robinsons's lawn to a Pennsylvania small town on fire with praise and parades when the athletes return from Berlin, Olympic Pride, American Prejudice has "done the world a favor by bringing into the sunlight the unknown story of eighteen black Olympians who should never be forgotten. This book is both beautiful and wrenching, and essential to understanding the rich history of African American athletes" (Kevin Merida, editor-in-chief of ESPN's The Undefeated).
