Palmento Robert V. Camuto 2010-09-01 Inspired by a deep passion for wine, an Italian heritage, and a desire for a land somewhat wilder than his home in southern France, Robert V. Camuto set out to explore Sicily's emerging wine scene. What he discovered during more than a year of traveling the region, however, was far more than a fascinating wine frontier. Chronicling his journey through Palermo to Marsala, and across the rugged interior of Sicily to the heights of Mount Etna, Camuto captures the personalities and flavors and the traditions and natural riches that have made Italy's largest and oldest wine region the world traveler's newest discovery. In the island's vastly different wines he finds an expression of humanity and nature and the space where the two merge into something more. Here, amid the wild landscapes, lavish markets, dramatic religious rituals, deliciously contrasting flavors, and astonishing natural warmth of its people, Camuto portrays Sicily at a shining moment in history. He takes readers into the anti-Mafia movement growing in the former mob vineyards around infamous Corleone; tells the stories of some of the island's most prominent landowning families; and introduces us to film and music celebrities and other foreigners drawn to Sicily's vineyards. His book takes wine as a powerful metaphor for the independent identity of this mythic land, which has thrown off its legacies of violence, corruption, and poverty to emerge, finally free, with its great soul intact. Anatomy of an Orogen: The Apennines and Adjacent Mediterranean Basins F. Vai 2013-12-21 This is the first book in English reviewing and updating the geology of the whole Apennines, one of the recent most uplifted mountains in the world. The Apennines are the place from which Steno (1669) first stated the principles of geology. The Apennines also represent amongst others, the finding/testing sites of processes and products like volcanic eruptions, earthquakes, olistostromes and mélanges (argille scagliose), salinity crisis, geothermal fluids, thrust-top basins, and turbidites (first represented in a famous Leonardo's painting). As such, the Apennines are a testing and learning ground readily accessible and rich of any type of field data. A growing literature is available most of which is not published in widely available journals. The objective of the book is to provide a synthesis of current data and ideas on the Apennines, for the most part simply written and suitable for an international audience. However, sufficient details and in-depth analyses of the various complex settings have been presented to make this material useful to professional scholars and to students of senior university courses.

The Cinema of Francesco Rosi Gaetana Marrone 2020-11 "Francesco Rosi (1922-2015) occupies a unique place in postwar Italian, indeed postwar world cinema. His films show a consistent formal balance while representing historical events as social emblems that examine, shape, and reflect the national identity. This important body of work, which has made a vital mark on the works of directors like Martin Scorsese remains to be examined for the English-speaking audience. This study addresses Rosi's films as mosaics fashioned out of "clips" collected from the various stages of production, most specifically from the director's own archival materials. My approach situates each film in its artistic and cultural context, but also attends to the specific forms and ethical commitment that characterize each film"--

Things I'm Seeing Without You Peter Bognanni 2017-10-03 Equal parts heartbreaking, funny, and life-affirming, this is a story about love after the most profound loss, for fans of Jesse Andrews, Rainbow Rowell, and Jennifer Niven. "Required reading." --John Corey Whaley, winner of the Printz Award Seventeen-year-old Tess Fowler has dropped out of high school, tossed her laptop in a freezing lake, then jumped in after it fully clothed. Why? Because Jonah was the boy she knew only through texts and emails but understood to his very core. Jonah was the only boy she'd told she loved and the only boy to say it back. And Jonah was the boy whose suicide she never saw coming. Jonah's death has sent Tess pinwheeling into grief and confusion. But even though he's gone, Tess still writes to him. She wants answers to the yawning chasm of questions that's become her life. At the same time, she's trying to find solace in her father's alternative funeral business. Who knew that arranging last rites for prized pets could be so life-affirming? But love, loss, and life are so much more complicated than Tess ever thought . . . especially after she receives a message that turns her already inside-out world totally upside down. As funny as it is heartbreaking and completely unputdownable, Things I'm Seeing Without You shows us what it means to love someone, to lose someone, to wade through the beautiful/strange agony of the aftermath, and somehow love again. "Sometimes hilarious, always affecting." --VOYA "Nails the messiness of grief." --SLJ "Compelling . . . a draw for fans of Nicola Yoon." --BCCB

Unto the Sons Gay Talese 2014-11-12 "An Italian ROOTS." —The Washington Post Book World At long last, Gay Talese, one of America's greatest living authors, employs his prodigious storytelling gifts to tell the saga of his own family's emigration to America from Italy in the years preceding World War II. Ultimately it is the story of all immigrant families and the hope and sacrifice that took them from the familiarity of the old world into the mysteries and challenges of the new.

Invisible City Helen Hills 2004-01-25 More than any other European city, Baroque Naples was dominated by convents. Behind their imposing facades and highly decorated churches, the convents of Naples housed the daughters of the city's most exclusive families, women who, despite their cloistered existence, were formidable players in the city's power structure. Invisible City vividly portrays the religious world of seventeenth-century Naples, a city of familial and internecine rivalries, of religious devotion and intense urban politics, of towering structures built to house the virgin daughters of the aristocracy. Helen Hills demonstrates how the architecture of the convents and the nuns' bodies they housed existed both in parallel and in opposition to one another. She discusses these women as subjects of enclosure, as religious women, and as art patrons, but also as powerful agents whose influence extended beyond the convent walls. Though often ensconced in convents owing to their families' economic circumstances, many of these young women were able to extend their influence as a result of the role convents played both in urban life and in art patronage. The convents were rich and powerful organizations, riven with feuds and prey to the ambitions of viceregal and elite groups, which their thick walls could not exclude. Even today, Neapolitan convents figure prominently in the city's fabric. In analyzing the architecture of these august institutions, Helen Hills skillfully reads conventual architecture as a metaphor for the body of the aristocratic virgin nun, mapping out the dialectic between flesh and stone.

The Ashgate Research Companion to Byzantine Hagiography Stephanos Efthymiadis 2016-04-01 For an entire millennium, Byzantine hagiography, inspired by the veneration of many saints, exhibited literary dynamism and a capacity to vary its basic forms. The subgenres into which it branched out after its remarkable start in the fourth century underwent alternating phases of development and decline that were intertwined with changes in the political, social and literary spheres. The selection of saintly heroes, an interest in depicting social landscapes, and the modulation of linguistic and stylistic registers captured the voice of homo byzantinus down to the end of the empire in the fifteenth century. The seventeen chapters in this companion form the sequel to those in volume I which dealt with the periods and regions of Byzantine hagiography, and complete the first comprehensive survey ever produced in this field. The book is the work of an international group of experts in the field and is addressed to both a broader public and the scholarly

community of Byzantinists, medievalists, historians of religion and theorists of narrative. It highlights the literary dimension and the research potential of a representative number of texts, not only those appreciated by the Byzantines themselves but those which modern readers rank high due to their literary quality or historical relevance.

American Immigrant Rosalie Porter 2017-09-04 Immigration is one of the most contentious issues in twenty-first-century America. In forty years, the American population has doubled from 150 to 300 million, about half of the increase due to immigration. Discussions involving legal and illegal status, assimilation or separatism, and language unity or multilingualism continue to spark debate. The battle to give five million immigrant children America's common language, English, and to help these students join their English-speaking classmates in opportunities for self-fulfillment continues to be argued. *American Immigrant* is part memoir and part account of Rosalie Pedalino Porter's professional activities as a national authority on immigrant education and bilingualism. Her career began in the 1970s, when she entered the most controversial arena in public education, bilingualism. This book chronicles the political movement Porter helped lead, one that succeeded in changing state laws in California, Arizona, and Massachusetts. Programs that had segregated Latino children by language and ethnicity for years, diminishing their educational opportunities, were removed with overwhelming public support. New English-language programs in these states are reporting improved academic achievement for these students. This book is also Porter's testament to the boundless opportunities for women in the United States, and to the unique blending of ethnicities and religions and races into harmonious families, her own included, that continues to be a true strength of the United States. Porter examines women's roles, beginning in the 1940s and continuing through the millennium, from the vantage point of someone who grew up in a working-class, male-dominated family. She explores the emotional price exacted by dislocation from one's native land and traditions; traveling and living in the Middle East, Europe, and Asia; and the evolving character of marriage and family in twenty-first-century America.

Karibu Cristina Fazzi 2022-07-01 La vita straordinaria e il lavoro di Cristina Fazzi, mamma, medico, donna fuori dal comune, sospinta da una forza incredibile. Lasciata Enna nel 2000 per trasferirsi momentaneamente nello Zambia, Cristina sarebbe dovuta rientrare in Italia dopo sei mesi, invece non è più tornata e da allora ha realizzato progetti impensabili in un'area vastissima del Paese, portando medicinali, vaccinando e visitando decine di migliaia di bambini; realizzando pozzi e strutture sanitarie; lottando contro la malnutrizione; scontrandosi con pregiudizi e superstizioni per combattere l'ignoranza e malattie come l'Aids. È la storia, la sua, di una battaglia senza sosta contro miseria e ingiustizia e per l'affermazione di un nuovo modello di sviluppo che ripensi totalmente i rapporti di forza internazionali. Ma anche la vicenda di una donna che da single si è battuta e ha vinto perché l'Italia riconoscesse l'adozione zambiana di suo figlio Joseph. E di figli, in affido perché non adottabili, oggi ne ha altri sette. "Non avrei mai immaginato di partire per lo Zambia. Non ho mai avuto lo spirito missionario. Non nel senso comune del termine. O meglio, consideravo il mio lavoro una missione perché l'ammalato, colui che soffre, ha bisogno di aiuto ovunque si trovi. Sono una gran fifona e l'idea di dover andare in un Paese descritto come pieno di pericoli non mi sfiorava nemmeno, non mi era mai balenata neanche nell'anticamera del cervello. A volte, però, il caso cambia il nostro percorso, il nostro destino. E così è stato". "In tutti questi anni sono venuti a trovarmi tanti amici. Vogliono capire, toccare con mano ciò che faccio, e vogliono anche dare un aiuto, per ciò che sanno e per ciò che possono. È una cosa che rafforza il filo rosso che lega il mio lavoro qui alla percezione che ne ha chi vive lontano da qui. Ma è anche e soprattutto un conforto. Mi aiuta a credere che non sono considerata una pazza visionaria rinchiusa in una bolla ma un frammento di un puzzle animato molto più grande".

Mazara/M?zar: nel ventre della città medievale (secoli VII-XV). Edizione critica degli scavi (1997) in via Tenente Gaspare Romano Alessandra Molinari 2021-12-30 Il Progetto The Archaeology of Regime Change. Sicily in Transition. 6th-13th centuries (SICTRANSIT – ERC advanced grant 693600) ha consentito di studiare con un'ampia gamma di analisi archeologiche e scientifiche il prezioso contenuto di fosse, pozzi, latrine e silos scavati nel 1997 nel centro storico della città di Mazara in Sicilia. La ricchezza e diversità dei materiali ritrovati, l'integrità dei contesti di rinvenimento e la loro scansione cronologica (dalla fine del VII al XVI secolo) si sono rivelate preziose per ricostruire consumi, scambi, produzioni, abitudini alimentari, tabù religiosi in relazione a importanti cambiamenti sociali e culturali che hanno interessato la Sicilia col passare delle dominazioni bizantina, musulmana, normanna, sveva e aragonese. Le vicende materiali di Mazara, seconda città dopo Palermo per importanza in età islamica e influente sede vescovile con i Normanni, acquistano nuova luce con una lettura dal basso, a partire dai più umili resti della vita quotidiana. La rilevanza dei risultati ottenuti per questa importante città, ha consentito di allargare, rivedere e completare la conoscenza non solo della Sicilia medievale, ma per molti versi anche dell'area mediterranea centrale tra la fine dell'antichità e quella del medioevo. The project The Archaeology of Regime Change. Sicily in Transition. 6th-13th centuries (SICTRANSIT – ERC advanced grant 693600) has made it possible to study with a wide range of archaeological and scientific analyses the contents of pits, wells, latrines and silos excavated in 1997 in the historic centre of the city of Mazara in Sicily. The richness and diversity of the materials found, the integrity of the contexts in which they were unearthed and their chronological span (from the end of the 7th to the 16th century) proved invaluable in reconstructing consumption, trade, production, food habits and religious taboos in relation to the important social and cultural changes that affected Sicily through the periods of consecutive Byzantine, Muslim, Norman, Swabian and Aragonese government. The material history of Mazara, the second most important city after Palermo in the Islamic period and an influential bishopric under the Normans, is here illuminated from the bottom up, starting from the most humble remains of daily life. The relevance of the results obtained for this important city has made it possible to broaden, revise and enhance our knowledge not only of medieval Sicily, but in many ways also of the central Mediterranean area between the end of antiquity and the later Middle Ages.

The Cinema of Francesco Rosi Gaetana Marrone 2020-10-16 Francesco Rosi is one of the great realist artists of post-war Italian, indeed post-war world cinema. In this book, author Gaetana Marrone explores the rich visual language in which the Neapolitan filmmaker expresses the cultural icons that constitute his style and images. Over the years, Rosi has offered us films that trace an intricate path between the real and the fictive, the factual and the imagined. His films show an extraordinarily consistent formal balance while representing historical events as social emblems that examine, shape, and reflect the national self. They rely on a labyrinthine narrative structure, in which the sense of an enigma replaces the unidirectional path leading ineluctably to a designated end and solution. Rosi's logical investigations are conducted by an omniscient eye and translated into a cinematic approach that embraces the details of material reality with the panoramic perspective of a dispassionate observer. This book offers intertextual analyses within such fields as history, politics, literature, and photography, along with production information gleaned from Rosi's personal archives and interviews. It examines Rosi's creative use of film as document, and as spectacle. It is also a study of the specific cinematic techniques that characterize Rosi's work and that visually, compositionally, express his vision of history and the elusive "truth" of past and present social and political realities.

The Emperor Frederick II of Hohenstaufen, Immutator Mundi Cleve Van 1972 This book was designed to explore as fully as possible the appropriateness of the phrase *immutator mundi* or transformer of the world, as applied by contemporaries to Frederick II of Hohenstaufen, to establish the relationship of his many-sided achievements to those of his Norman and Hohenstaufen antecedents; to describe the circle of associates who participated in his manifold activities; and, finally, to seek the origin and to trace the course of the unremitting hostility of contemporary popes to him and to his concept of empire. The author has critically examined and judiciously employed all available contemporary chronicles, letters, official documents, polemical writings, and all other pertinent materials that either directly or indirectly bear upon the subject. In addition, the book is in no wise concerned

with the spiritual motivation of the priesthood.
