Politics in Indonesia Douglas E. Ramage 2002-09-11 Politics in Indonesia describes the attitudes, aspirations and frustrations of the key players in Indonesian politics as they struggle to shape the future. The book focuses on the role of political Islam; Douglas E. Ramage shows that the state has been remarkably successful in maintaining secular political institutions in a predominantly Muslim society. He analyses the way in which political questions are framed with reference to the national ideology, the Pancasila.

Contentious Belonging Greg Fealy 2019-05-27 Contention has surrounded the status of minorities throughout Indonesian history. Two broad polarities are evident: one inclusive of minorities, regarding them as part of the nation's rich complexity and a manifestation of its "Unity in Diversity" motto; the other exclusive, viewing with suspicion or disdain those communities or groups that differ from the perceived majority. State and community attitudes towards minorities have fluctuated over time. Some periods have been notable for the acceptance of minorities and protection of their rights, while others have been marked by anti-minority discrimination, marginalisation and sometimes violence. This book explores the complex historical and contemporary dimensions of Indonesia's religious, ethnic, LGBT and disability minorities from a range of perspectives, including historical, legal, political, cultural, discursive and social. It addresses fundamental questions about Indonesia's tolerance and acceptance of difference, and examines the extent to which diversity is embraced or suppressed.

The Politics of Shari'a Law Michael Buehler 2016-09 An original and timely exploration of the continuing Islamization of Indonesian politics despite the electoral decline of Islamist parties.

Democratic Transition in the Muslim World Alfred Stepan 2018-03-13 In early 2011, widespread protests ousted dictatorial regimes in both Tunisia and Egypt. Within a few years, Tunisia successfully held parliamentary and presidential elections and witnessed a peaceful transition of power, while the Egyptian military went on to seize power and institute authoritarian control. What explains the success and failure of transitions to democracy in these two countries, and how might they speak to democratic transition attempts in other Muslim-majority countries? Democratic Transition in the Muslim World convenes leading scholars to consider the implications of democratic success in Tunisia and failure in Egypt in comparative perspective. Alongside case studies of Indonesia, Senegal, and India, contributors analyze similarities and differences among democratizing countries with large Muslim populations, considering universal challenges as well as each nation's particular obstacles. A central theme is the need to understand the conditions under which it becomes possible to craft pro-democratic coalitions among secularists and Islamists. Essays discuss the dynamics of secularist fears of Islamist electoral success, the role of secular constituencies in authoritarian regimes' resilience, and the prospects for moderation among both secularist and Islamist political actors. They delve into topics such as the role of the army and foreign military aid, Middle Eastern constitutions, and the role of the Muslim Brotherhood. The book also includes an essay by the founder and president of Tunisia's Ennahda Party, Rachid Ghannouchi, who discusses the political strategies his party chose to pursue.

Islam and Democracy in Indonesia Jeremy Menchik 2017-03-23 Indonesia's Islamic organizations sustain the country's thriving civil society, democracy, and reputation for tolerance amid diversity. Yet scholars poorly understand how these organizations envision the accommodation of religious difference. What does tolerance mean to the world's largest Islamic organizations? What are the implications for democracy in Indonesia and the broader Muslim world? Jeremy Menchik argues that answering these questions requires decoupling tolerance from liberalism and investigating the historical and political conditions that engender democratic values. Drawing on archival documents, ethnographic observation, comparative political theory, and an original survey, Islam and Democracy in Indonesia demonstrates that Indonesia's Muslim leaders favor a democracy in which individual rights and group-differentiated rights converge within a system of legal pluralism, a vision at odds with American-style secular government but common in Africa, Asia and Eastern Europe.

Mobilizing Piety Rachel Rinaldo 2013-08-20 Islam and feminism are often thought of as incompatible. Through a vivid ethnography of Muslim and secular women activists in Jakarta, Indonesia, Rachel Rinaldo shows that this is not always the case. Examining a feminist NGO, Muslim women's organizations, and a Muslim political party, Rinaldo reveals that democratization and the Islamic revival in Indonesia are shaping new forms of personal and political agency for women. These unexpected kinds of agency draw on different approaches to interpreting religious texts and facilitate different repertoires of collective action - one oriented toward rights and equality, the other toward more public moral regulation. As Islam becomes a primary source of meaning and identity in Indonesia, some women activists draw on Islam to argue for women's empowerment and equality, while others use Islam to advocate for a more Islamic nation. Mobilizing Piety demonstrates that religious and feminist agency can coexist and even overlap, often in creative ways.

Islam and Democracy John L. Esposito 1996-05-09 Are Islam and democracy on a collision course? Do Islamic movements seek to "hijack democracy?" How have governments in the Muslim world responded to the many challenges of Islam and democracy today? A global religious resurgence and calls for greater political participation have been major forces in the post-Cold War period. Across the Muslim world, governments and Islamic movements grapple with issues of democratization and civil society. Islam and Democracy explores the Islamic sources (beliefs and institutions) relevant to the current debate over greater political participation and democratization. Esposito and Voll use six case studies--Algeria, Egypt, Iran, Malaysia, Pakistan, and Sudan--to look at the diversity of Muslim experiences and experiments. At one end of the spectrum, Iran and Sudan represent two cases of militant, revolutionary Islam establishing political systems. In Pakistan and Malaysia, however, the new movements have been recognized and made part of the political process. Egypt and Algeria reveal the coexistence of both extremist and moderate Islamic activism and demonstrate the complex challenges confronting ruling elites. These case studies prove that despite commonalities, differing national contexts and identities give rise to a multiplicity of agendas and strategies. This broad spectrum of case studies, reflecting the multifaceted relationship of Islam and Democracy, provides important insight into the powerful forces of religious resurgence and democratization which will inevitably impact global politics in the twenty first century.

Secularism, Religion, and Democracy in Southeast Asia Vidhu Verma 2019-08-24 Until the 1990s, secularism was understood largely as exclusion of religion from the public domain. However, in the last two decades, the world has witnessed the return of religion as a medium and subject of national, regional, and global politics. With such a shift, the previously unquestioned Western values of modernity and secularism find themselves at loggerheads with the increasing assertion of religious identity, which results in difference-based conflicts. This antagonism also gives rise to a vibrant, religiously pluralistic civil society and speaks of a post-secular turn in modern Southeast Asian democracies. Secularism, Religion, and Democracy in Southeast Asia tries to understand the rise of religion in modern democracies and how everyday economic, social, and political conditions aid this post-secular phenomenon in Southeast Asia. Setting itself apart from most studies of religion in Southeast Asia through its regional focus, this volume explores the ideas, practices, state responses, and anxieties related to the religious-secular divide in this geopolitical region.

Islam, Gender, and Democracy in Comparative Perspective José Casanova 2017-04-27 The relationship between secularism, democracy, religion, and gender equality has been a complex one across Western democracies and still remains contested. When we turn to Muslim countries, the situation is even

more multifaceted. In the views of many western commentators, the question of Women Rights is the litmus test for Muslim societies in the age of democracy and liberalism. Especially since the Arab Awakening, the issue is usually framed as the opposition between liberal advocates of secular democracy and religious opponents of women's full equality. *Islam, Gender, and Democracy in Comparative Perspective* critically re-engages this too simple binary opposition by reframing the debate around Islam and women's rights within a broader comparative literature. Bringing together leading scholars from a range of disciplines, it examines the complex and contingent historical relationships between religion, secularism, democracy, law, and gender equality. Part One addresses the nexus of religion, law, gender, and democracy through different disciplinary perspectives (sociology, anthropology, political science, law). Part Two localizes the implementation of this nexus between law, gender, and democracy and provides contextualized responses to questions raised in Part One. The contributors explore the situation of Muslim women's rights in minority conditions to shed light on the gender politics in the modernization of the nation and to ponder on the role of Islam in gender inequality across different Muslim countries.

*Between Heaven and Hell* Mohammad Hassan Khalil 2013-01-31 *Between Heaven and Hell* explores the diverse and novel approaches taken by scholars of Islam when addressing the important topic of soteriology (the discourse and doctrines of salvation) and the fate of Others.

*Remaking Muslim Politics* Robert W. Hefner 2009-01-10 There is a struggle for the hearts and minds of Muslims unfolding across the Islamic world. The conflict pits Muslims who support pluralism and democracy against others who insist such institutions are antithetical to Islam. With some 1.3 billion people worldwide professing Islam, the outcome of this contest is sure to be one of the defining political events of the twenty-first century. Bringing together twelve engaging essays by leading specialists focusing on individual countries, this pioneering book examines the social origins of civil-democratic Islam, its long-term prospects, its implications for the West, and its lessons for our understanding of religion and politics in modern times. Although depicted by its opponents as the product of political ideas "made in the West" civil-democratic Islam represents an indigenous politics that seeks to build a distinctive Islamic modernity. In countries like Turkey, Iran, Malaysia, and Indonesia, it has become a major political force. Elsewhere its influence is apparent in efforts to devise Islamic grounds for women's rights, religious tolerance, and democratic citizenship. Everywhere it has generated fierce resistance from religious conservatives. Examining this high-stakes clash, *Remaking Muslim Politics* breaks new ground in the comparative study of Islam and democracy. The contributors are Bahman Baktiari, Thomas Barfield, John R. Bowen, Dale F. Eickelman, Robert W. Hefner, Peter Mandaville, Augustus Richard Norton, Gwenn Okruhlik, Michael G. Peletz, Diane Singerman, Jenny B. White, and Muhammad Qasim Zaman.

*Civil Democratic Islam* Cheryl Benard 2004-03-25 In the face of Islam's own internal struggles, it is not easy to see who we should support and how. This report provides detailed descriptions of subgroups, their stands on various issues, and what those stands may mean for the West. Since the outcomes can matter greatly to international community, that community might wish to influence them by providing support to appropriate actors. The author recommends a mixed approach of providing specific types of support to those who can influence the outcomes in desirable ways.

*Religion and Nationalism in Southeast Asia* Joseph Liow 2016-08-25 Examines the ways in which religion and nationalism have interacted to provide a powerful impetus for mobilization in Southeast Asia.

*Human Rights Culture in Indonesia* Maksimus Regus 2021-06-08 Drawing on human rights discourse and a study of the difficulties faced by religious minority groups (using the Ahmadiyya minority group as a case study), this book presents three interconnected challenges to human rights culture in Indonesia. First, it presents a normative challenge, describing the gap between philosophical and normative principles of human rights on one side and the overall problems and critical issues of human rights at national and local levels on the other. Second, it considers the political problems in developing and strengthening human rights culture. The political challenge addresses the ability (or inability) of the state to guarantee the rights of certain individuals and minority groups. Third, it examines the sociological challenge of majority-minority group relationships in human rights discourse and practices. This book describes the background of human rights in Indonesia and reviews the previous literature on the issue. It also presents a comprehensive review of the discourses about human rights and political changes in contemporary Indonesia. The analysis focuses on how human rights challenges affect the situation of religious minorities, looking in particular at the Ahmadiyya as a minority group that experiences human rights violations such as discrimination, persecution, and violence. The study fills out its treatment of these issues by examining the involvement of actors both from the state and society, addressing also the politics of human rights protection.

Yet scholars poorly understand how these organizations envision the accommodation of religious difference. What does tolerance mean to the world's largest Islamic organizations? *Islamic Education in Indonesia and Malaysia* Azmil Mohd Tayeb 2018-03-13 Despite their close geographic and cultural ties, Indonesia and Malaysia have dramatically different Islamic education, with that in Indonesia being relatively decentralized and discursively diverse, while that in Malaysia is centralized and discursively restricted. The book explores the nature of the Islamic education systems in Indonesia and Malaysia and the different approaches taken by these states in managing these systems. The book argues that the post-colonial state in Malaysia has been more successful in centralising its control over Islamic education, and more concerned with promoting a restrictive orthodoxy, compared to the post-colonial state in Indonesia. This is due to three factors: the ideological makeup of the state institutions that oversee Islamic education; patterns of societal Islamisation that have prompted different responses from the states; and control of resources by the central government that influences centre-periphery relations. Informed by the theoretical works of state-in-society relations and historical institutionalism, this book shows that the three aforementioned factors can help a state to minimize influence from the society and exert its dominance, in this case by centralising control over Islamic education. Specifically, they help us understand the markedly different landscapes of Islamic education in Malaysia and Indonesia. It will be of interest to academics in the field of Southeast Asian Studies, Asian Education and Comparative Education.

*Islam in Indonesia* Jajat Burhanudin 2013-01-31 While Muslims in Indonesia have begun to turn towards a strict adherence to Islam, the reality of the socio-religious environment is much more complicated than a simple shift towards fundamentalism. In this volume, contributors explore the multifaceted role of Islam in Indonesia from a variety of different perspectives, drawing on carefully compiled case studies. Topics covered include religious education, the increasing number of Muslim feminists in Indonesia, the role of Indonesia in the greater Muslim world, social activism and the middle class, and the interaction between Muslim radio and religious identity.

*The Missing Martyrs* Charles Kurzman 2018-12-07 Why are there so few Muslim terrorists? With more than a billion Muslims in the world-many of whom supposedly hate the West and ardently desire martyrdom-why don't we see terrorist attacks every day? Where are the missing martyrs? These questions may seem counterintuitive, in light of the death and devastation that terrorists have wrought around the world. But the scale of violence, outside of civil war zones, has been far lower than the waves of attacks that the world feared in the wake of 9/11. Terrorists' own publications complain about Muslims' failure to join their cause. *The Missing Martyrs* draws on government sources and revolutionary publications, public opinion surveys and election results, historical documents and in-depth interviews with Muslims in the Middle East and around the world to examine barriers to terrorist recruitment, including liberal Islam, revolutionary rivalries, and an inelastic demand for U.S. foreign policy. This revised edition, updated to include the self-proclaimed "Islamic State," concludes that fear of terrorism should be brought into alignment with the actual level of threat, and that government policies and public opinion should be based on evidence rather than alarmist hyperbole.

*Indonesia* Jamie S. Davidson 2018-08-16 This *Element* argues that after twenty years of democratization, Indonesia has performed admirably. This is especially so when the country's accomplishments are placed in comparative perspective. However, as we analytically focus more closely to inspect Indonesia's political regime, political economy, and how identity-based mobilizations have emerged, it is clear that Indonesia still has many challenges to overcome, some so pressing that they could potentially erode or reverse many of the democratic gains the country has achieved since its former authoritarian ruler, Soeharto, was forced to resign in 1998.

*Post-Islamism* Asef Bayat 2013-08-01 The essays of *Post-Islamism* bring together young and established scholars and activists from different parts of the Muslim World and the West to discuss their research on the changing discourses and practices of Islamist movements and Islamic states largely in the

Muslim majority countries.

Constitutionalism in Islamic Countries: Between Upheaval and Continuity Tilmann Röder (J.) 2012-02-16 Constitutionalism in Islamic Countries: Between Upheaval and Continuity examines the question of whether something similar to an "Islamic constitutionalism" has emerged out of the political and constitutional upheaval witnessed in many parts of North Africa, the Middle East, and Central and Southern Asia. In order to identify its defining features and to assess the challenges that Islamic constitutionalism poses to established concepts of constitutionalism, this book offers an integrated analysis of the complex frameworks in Islamic countries, drawing on the methods and insights of comparative constitutional law, Islamic law, international law and legal history. European and North American experiences are used as points of reference against which the peculiar challenges, and the specific answers given to those challenges in the countries surveyed, can be assessed. The book also examines ways in which the key concepts of constitutionalism, including fundamental rights, separation of powers, democracy and rule of law, may be adapted to an Islamic context, thus providing valuable new insights on the prospects for a genuine renaissance of constitutionalism in the Islamic world in the wake of the "Arab spring."

Red at Heart Elizabeth McGuire 2017-10-02 Red at Heart conjures a tale of cross-cultural romance from a topic that is normally seen in geopolitical or ideological terms--and thereby offers a new interpretation of twentieth century communism's most crucial alliance. This is the multigenerational history of people who experienced Sino-Soviet affairs most intimately: prominent Chinese revolutionaries who traveled to Russia in their youths to study, often falling in love and having children there. Their deeply personal memoirs, interviews with their children, and a vivid collection of documents from the Russian archives allow Elizabeth McGuire to reconstruct the sexually-charged, physically difficult, and politically dangerous lives of Chinese communists in the Soviet Union. The choices they made shaped not only the lives of their children, but also the postwar alliance between the People's Republic of China and Soviet Russia. Red at Heart brings to life a cast of transnational characters--including a son of Chiang Kai-shek and a wife of Mao Zedong--who connected the two great communist revolutions in human terms. Weaving personal stories and cultural interactions into political history, McGuire movingly shows that the Sino-Soviet relationship was not a brotherhood or a friendship, but rather played out in phases like many lifelong love affairs - from first love, early betrayal, and love children; through eventual marriage with its conveniences and annoyances, guarded optimism, and official heirs; to divorce, reconciliation, and a nostalgia that lingers even today. A century after 1917, this book offers a novel story about Chinese communism, the Russian Revolution's most geopolitically significant legacy.

Liberalism Disavowed Chua Beng Huat 2017-06-23 In Liberalism Disavowed, Chua Beng Huat examines the rejection of Western-style liberalism in Singapore and the way the People's Action Party has forged an independent non-Western ideology. This book explains the evolution of this communitarian ideology, with focus on three areas: public housing, multiracialism and state capitalism, each of which poses different challenges to liberal approaches. With the passing of the first Prime Minister, Lee Kuan Yew and the end of the Cold War, the party is facing greater challenges from an educated populace that demands greater voice. This has led to liberalization of the cultural sphere, greater responsiveness and shifts in political rhetoric, but all without disrupting the continuing hegemony of the PAP in government.

Reconciliation Benazir Bhutto 2014-05-22 Former Prime Minister Benazir Bhutto, the chairperson of the Pakistan People's Party, was seen as vital to that country's future. In exile for years, in late 2007 she felt the time had come to actively re-engage and to return to the country she loved. Part of that process was a clear-eyed assessment of where Pakistan was, and of the nature of its relationship with the West, with Islam, and with extremism. In this important new book, completed just days before her assassination, Ms Bhutto demonstrates that extremism is not inherent to Islam, but that various factors, including some policies of the West, have empowered Islamic fundamentalists and are responsible for the current battle for the hearts, minds and bodies of the Umma (the Islamic nation around the world). RECONCILIATION was her compelling and convincing prescription for the country at the heart of the so-called 'clash of civilizations'. It argues that democracy, economic development, moderation and modernity are the greatest threats to international terrorism. She pledged to work with the United States and the West to ensure that Pakistan ceased to be the petri dish of international radicals, and to re-establish its bona fides as a realistic and effective moderate alternative for one billion Muslims around the world.

Civil Islam Robert W. Hefner 2011-05-21 Civil Islam tells the story of Islam and democratization in Indonesia, the world's largest Muslim nation.

Challenging stereotypes of Islam as antagonistic to democracy, this study of courage and reformation in the face of state terror suggests possibilities for democracy in the Muslim world and beyond. Democratic in the early 1950s and with rich precedents for tolerance and civility, Indonesia succumbed to violence. In 1965, Muslim parties were drawn into the slaughter of half a million communists. In the aftermath of this bloodshed, a "New Order" regime came to power, suppressing democratic forces and instituting dictatorial controls that held for decades. Yet from this maelstrom of violence, repressed by the state and denounced by conservative Muslims, an Islamic democracy movement emerged, strengthened, and played a central role in the 1998 overthrow of the Soeharto regime. In 1999, Muslim leader Abdurrahman Wahid was elected President of a reformist, civilian government. In explaining how this achievement was possible, Robert Hefner emphasizes the importance of civil institutions and public civility, but argues that neither democracy nor civil society is possible without a civilized state. Against portrayals of Islam as inherently antipluralist and undemocratic, he shows that Indonesia's Islamic reform movement repudiated the goal of an Islamic state, mobilized religiously ecumenical support, promoted women's rights, and championed democratic ideals. This broadly interdisciplinary and timely work heightens our awareness of democracy's necessary pluralism, and places Indonesia at the center of our efforts to understand what makes democracy work.

Religion and Regulation in Indonesia Ismatu Ropi 2017-01-05 This book analyses the relation between state and religion in Indonesia, considering both the philosophical underpinning of government intervention on religious life but also cases and regulations related to religious affairs in Indonesia.

Examining state regulation of religious affairs, it focuses on understanding its origin, history and consequences on citizens' religious life in modern Indonesia, arguing that while Indonesian constitutions have preserved religious freedom, they have also tended to construct wide-ranging discretionary powers in the government to control religious life and oversee religious freedom. Over more than four decades, Indonesian governments have constructed a variety of policies on religion based on constitutional legacies interpreted in the light of the norms and values of the existing religious majority group. A cutting edge examination of the tension between religious order and harmony on one hand, and protecting religious freedom for all on the other, this book offers a cutting edge study of how the history of regulating religion has been about the constant negotiation for the boundaries of authority between the state and the religious majority group.

Riots, Pogroms, Jihad John T. Sidel 2018-07-05 In October 2002 a bomb blast in a Balinese nightclub killed more than two hundred people, many of them young Australian tourists. This event and subsequent attacks on foreign targets in Bali and Jakarta in 2003, 2004, and 2005 brought Indonesia into the global media spotlight as a site of Islamist terrorist violence. Yet the complexities of political and religious struggles in Indonesia, the most populous Muslim country in the world, remain little known and poorly understood in the West. In Riots, Pogroms, Jihad, John T. Sidel situates these terrorist bombings and other "jihadist" activities in Indonesia against the backdrop of earlier episodes of religious violence in the country, including religious riots in provincial towns and cities in 1995-1997, the May 1998 riots in Jakarta, and interreligious pogroms in 1999-2001. Sidel's close account of these episodes of religious violence in Indonesia draws on a wide range of documentary, ethnographic, and journalistic materials. Sidel chronicles these episodes of violence and explains the overall pattern of change in religious violence over a ten-year period in terms of the broader discursive, political, and sociological contexts in which they unfolded. Successive shifts in the incidence of violence--its forms, locations, targets, perpetrators, mobilizational processes, and outcomes--correspond, Sidel suggests, to related shifts in the very structures of religious authority and identity in Indonesia during this period. He interprets the most recent "jihadist" violence as a reflection of the post-1998 decline of Islam as a banner for unifying and mobilizing Muslims in Indonesian politics and society. Sidel concludes this book by reflecting on the broader implications of the pattern observed in Indonesia both for understanding Islamic terrorism in

particular and for analyzing religious violence in all its varieties.

**Islam and Politics in Indonesia** Remy Madinier 2015-08-31 The Masyumi Party, which was active in Indonesia from 1945 to 1960, constitutes the boldest attempt to date at reconciling Islam and democracy. Masyumi proposed a vision of society and government which was not bound by a literalist application of Islamic doctrine but rather inspired by the values of Islam. It set out moderate policies which were both favourable to the West and tolerant towards other religious communities in Indonesia. Although the party made significant strides towards the elaboration of a Muslim democracy, its achievements were nonetheless precarious: it was eventually outlawed in 1960 for having resisted Sukarno's slide towards authoritarianism, and the refusal of Suharto's regime to reinstate the party left its leaders disenchanting and marginalised. Many of those leaders subsequently turned to a form of Islam known as integralism, a radical doctrine echoing certain characteristics of 19th-century Catholic integralism, which contributed to the advent of Muslim neo-fundamentalism in Indonesia. This book examines the Masyumi Party from its roots in early 20th-century Muslim reformism to its contemporary legacy, and offers a perspective on political Islam which provides an alternative to the more widely-studied model of Middle-Eastern Islam. The party's experience teaches us much about the fine line separating a moderate form of Islam open to democracy and a certain degree of secularisation from the sort of religious intransigence which can threaten the country's denominational coexistence.

**Are Muslims Distinctive?** M. Steven Fish 2011-02-09 *Are Muslims Distinctive?* represents the first major scientific effort to assess how Muslims and non-Muslims differ--and do not differ--in the contemporary world. Using rigorous methods and data drawn from around the globe, M. Steven Fish reveals that in some areas Muslims and non-Muslims differ less than is commonly imagined. Muslims are not inclined to favor the fusion of religious and political authority or especially prone to mass political violence. Yet there are differences: Gender inequality is more severe among Muslims, Muslims are unusually averse to homosexuality and other controversial behaviors, and democracy is rare in the Muslim world. Other areas of divergence bear the marks of a Muslim advantage: Homicide rates and class-based inequities are less severe among Muslims than non-Muslims. Fish's findings have vital implications for human welfare, interfaith understanding, and international relations.

**Law and Religion in Indonesia** Melissa Crouch 2013-11-12 *Understanding and managing inter-religious relations, particularly between Muslims and Christians, presents a challenge for states around the world. This book investigates legal disputes between religious communities in the world's largest majority-Muslim, democratic country, Indonesia. It considers how the interaction between state and religion has influenced relations between religious communities in the transition to democracy. The book presents original case studies based on empirical field research of court disputes in West Java, a majority-Muslim province with a history of radical Islam. These include criminal court cases, as well as cases of judicial review, relating to disputes concerning religious education, permits for religious buildings and the crime of blasphemy. The book argues that the democratic law reform process has been influenced by radical Islamists because of the politicization of religion under democracy and the persistence of fears of Christianization. It finds that disputes have been localized through the decentralization of power and exacerbated by the central government's ambivalent attitude towards radical Islamists who disregard the rule of law. Examining the challenge facing governments to accommodate minorities and manage religious pluralism, the book furthers understanding of state-religion relations in the Muslim world. This accessible and engaging book is of interest to students and scholars of law and society in Southeast Asia, as well as Islam and the state, and the legal regulation of religious diversity.*

**Rethinking Religion and World Affairs** Timothy Samuel Shah 2012-02-29 In recent years, the role of religion in the study and conduct of international affairs has become increasingly important. The essays in this volume seek to question and remedy the problematic neglect of religion in extant scholarship, grappling with puzzles, issues, and questions concerning religion and world affairs in six major areas. Contributors critically revisit the "secularization thesis," which proclaimed the steady erosion of religion's public presence as an effect of modernization; explore the relationship between religion, democracy, and the juridico-political discourse of human rights; assess the role of religion in fomenting, ameliorating, and redressing violent conflict; and consider the value of religious beliefs, actors, and institutions to the delivery of humanitarian aid and the fostering of socio-economic development. Finally, the volume addresses the representation of religion in the expanding global media landscape, the unique place of religion in American foreign policy, and the dilemmas it presents. Drawing on the work of leading scholars as well as policy makers and analysts, *Rethinking Religion and World Affairs* is the first comprehensive and authoritative guide to the interconnections of religion and global politics.

**Asia's Reckoning** Richard McGregor 2017-09-05 'Stunningly good' Michael Burleigh, *Evening Standard*, Books of the Year 2017 The dramatic story of the relationship between the world's three largest economies, one that is shaping the future of us all, by one of the foremost experts on east Asia For more than half a century, American power in the Pacific has successfully kept the peace. But it has also cemented the tensions in the toxic rivalry between China and Japan, consumed with endless history wars and entrenched political dynasties. Now, the combination of these forces with Donald Trump's unpredictable impulses and disdain for America's old alliances threatens to upend the region, and accelerate the unravelling of the postwar order. If the United States helped lay the postwar foundations for modern Asia, now the anchor of the global economy, *Asia's Reckoning* will reveal how that structure is now crumbling. With unrivalled access to archives in the US and Asia, as well as many of the major players in all three countries, Richard McGregor has written a tale which blends the tectonic shifts in diplomacy with the domestic political trends and personalities driving them. It is a story not only of an overstretched America, but also of the rise and fall and rise of the great powers of Asia. The confrontational course on which China and Japan have increasingly set themselves is no simple spat between neighbors. And the fallout would be a political and economic tsunami, affecting manufacturing centers, trade routes, and political capitals on every continent.

**Piety and Public Opinion** Thomas B. Pepinsky 2018-01-02 Across the Muslim world, religion plays an increasingly prominent role in both the private and public lives of over a billion people. Observers of these changes struggle to understand the consequences of an Islamic resurgence in a democratizing world. Will democratic political participation by an increasingly religious population lead to victories by Islamists at the ballot box? Will more conspicuously pious Muslims participate in politics and markets in a fundamentally different way than they had previously? Will a renewed attention to Islam lead Muslim democracies to reevaluate their place in the global community of states, turning away from alignments with the West or the Global South and towards an Islamic civilizational identity? The answers to all of these questions depend, at least in part, on what ordinary Muslims think and do. In order to provide these answers, the authors of this book look to Indonesia--the world's largest Muslim country and one of the world's only consolidated Muslim democracies. They draw on original public opinion data to explore how religiosity and religious belief translate into political and economic behavior at the individual level. Across various issue areas--support for democracy or Islamic law, partisan politics, Islamic finance, views about foreign engagement--they find no evidence that the religious orientations of Indonesian Muslims have any systematic relationships with their political preferences or economic behavior. The broad conclusion is that scholars of Islam, in Indonesia and elsewhere, must understand religious life and individual piety as part of a larger and more complex set of social transformations. These transformations include modernization, economic development, and globalization, each of which has occurred in parallel with Islamic revivalism throughout the world. Against the common assumption that piety would naturally inhibit any tendencies towards modernity, democracy, or cosmopolitanism, *Piety and Public Opinion* reveals the complex and subtle links between religion and political beliefs in a critically important Muslim democracy.

**The Oxford Handbook of Islam and Politics** Emad El-Din Shahin 2016-10-01 Over the past three decades, scholars, government analysts and terrorism experts have examined the relationship between Islam and politics. But specialists have tended to limit their analysis to a specific country or focus. Few works have provided a geographically comprehensive, in-depth analysis. Since 9/11, another wave of literature on political Islam and global terrorism has appeared, much of it superficial and sensationalist. This situation underscores the need for a comprehensive, analytical, and in-depth examination of Islam and politics in the post-9/11 era and in an increasingly globalizing world. *The Oxford Handbook of Islam and Politics*, with contributions from prominent scholars and specialists, provides a comprehensive analysis of what we know and where we are in the study of political Islam. It enables scholars, students, and policymakers to understand the interaction of Islam and politics and the multiple and diverse roles of Islamic movements, as well as issues of authoritarianism and democratization, religious extremism and terrorism regionally and globally.

**The Military and Democracy in Indonesia** Angel Rabasa 2002-12-13 The military is one of the few institutions that cut across the divides of Indonesian society. As it continues to play a critical part in determining Indonesia's future, the military itself is undergoing profound change. The authors of this book examine the role of the military in politics and society since the fall of President Suharto in 1998. They present several strategic scenarios for Indonesia, which have important implications for U.S.-Indonesian relations, and propose goals for Indonesian military reform and elements of a U.S. engagement

policy.
