Penser sa vie avec les philosophes Dominique Josse 2019-10-10 "Que sais-je ? Que dois-je faire ? Que m'est-il permis d'espérer ? " Ainsi s'interrogeait Kant. Preuve s'il en est que les philosophes ne sont pas des êtres désincarnés. Ce sont des hommes comme nous, ayant une famille, un métier, des engagements citoyens. Dans leurs écrits, ils nous parlent de nous, de ce que nous sommes et vivons. Leurs questions sont les interrogations existentielles auxquelles nous confronte le monde postmoderne consumériste, individualiste, relativiste et nihiliste. En revisitant la philosophie moderne, cet ouvrage nous invite à reprendre les trois grandes questions kantienne. Il est urgent de penser notre existence afin de vivre avec lucidité, responsabilité et plénitude. Ce que les Grecs appelaient une vie "bonne" .

Penser sa vie Fernando Savater 2000 A quoi sert la philosophie ? En interrogeant la science, nous pouvons aujourd'hui résoudre une quantité de problèmes et lever le voile sur ce qui, il n'y a pas si longtemps encore, nous semblait auréolé de mystère. Mais certaines questions demeurent ouvertes, parce qu'elles n'admettent aucune réponse définitive. De siècle en siècle, de génération en génération, elles ont toujours accompagné les hommes et sont au cœur de maintes situations auxquelles nous sommes chaque jour confrontés. Elles concernent la mort, la vérité, l'univers, la liberté, la justice, la beauté, le temps... La philosophie ne prétend pas y répondre une fois pour toutes, mais elle nous apprend à les poser et à réfléchir sur le monde dans lequel nous vivons et sur la signification qu'il a pour nous. Ce livre se veut une initiation à la philosophie à l'usage de tous : des jeunes qui, en classe de terminale, doivent pour la première fois en aborder l'étude et de ceux qui aspirent à en connaître les fondements.

Impromptus André Comte-Sponville 1996-09 « Philosophe, c'est penser sa vie et vivre sa pensée. Entre les deux un décalage subsiste pourtant, qui nous constitue et nous déchire... A quoi bon tant penser si c'est pour vivre si peu ?... On voudrait ici essayer autre chose... une philosophie à découvert, au plus près de la vie réelle, de ses échecs, de sa fragilité, de sa perpétuelle et fugitive improvisation... C'est ce que le mot d'impromptus, emprunté à Schubert, a paru pouvoir désigner à peu près. »

Intergenerational solidarity in libraries / La solidarité intergénérationnelle dans les bibliothèques Ivanka Stricevic 2012-08-31 Rapid and intensive changes in the information landscape cause changes in social relationships and, consequently, in relations between generations. Within their social role libraries should work actively to reduce age segregation and isolation, and build cohesive society through intergenerational services and programmes. The authors speak about the intergenerational dialogue in libraries - theories, research and practice - and about reading as

a link between generations, thus offering to libraries strategies for establishing social cohesion.

French Prose in 2000 2021-10-18 French Prose in 2000 stems in some important measure from work presented in September 1998 at the International Colloquium on French and Francophone Literature in the 1990's held at Dalhousie University. A good number of papers given at that time, and since revisited in the light of exchanges, join here certain others specifically written for the purposes of this book. Together they constitute a wide-ranging and modally varied interrogation of the current state of French and francophone prose writing, its multifaceted manners, its richly divergent fascinations, its many theoretical or philosophical groundings. The book thus ceaselessly moves its attention from fictional biography to the roman noir, from the writing of Glissant and Chamoiseau to that of the étonnants voyageurs, from the powerful discourse of women such as Chawaf or Condé, Ernaux or Germain, Sallenave or Kristeva, to that of writers as diverse in their modes as Le Clézio and Quignard, Duras and Renaud Camus. All chapters focus, however, in near-exclusive measure, on the prose production of the last ten or twelve years.

The Cosmos and the Creative Imagination Anna-Teresa Tymieniecka 2016-02-03 The essays in this book respond to Anna-Teresa Tymieniecka's recent call to explore the relationship between the evolution of the universe and the process of self-individuation in the onto-poietic unfolding of life. The essays approach the sensory manifold in a number of ways. They show that theories of modern science become a strategy for the phenomenological study of works of art, and vice versa. Works of phenomenology and of the arts examine how individual spontaneity connects with the design(s) of the logos – of the whole and of the particulars – while the design(s) rest not on some human concept, but on life itself. Life's pliable matrices allow us to consider the expansiveness of contemporary science, and to help create a contemporary phenomenological sense of cosmos.
